# Ethics and Values

- Client's interest is always first.
- No Soft Dollar Arrangements. All transactions in the clients account therefore have only one purpose: earn absolute returns
- Charge fees for Alpha Generation. Except for the moderate administration fee, our clients pay us only if we perform.
- Our model is such that unless we earn any significant return for our clients, we don't make any for ourselves.

# Disclaimers and a few other matters

- No 'lock-in' is proposed or enforced of funds placed with us in the PMS Schemes but clients are encouraged to view their account as long term investments and it is suggested that only long term, surplus funds be invested in the scheme. Our investment style is best suited for individuals or families who wish to protect long term capital while investing in equities.
- Equities as a class may under perform other investments in the form of real estate, bond funds, gold etc and we do not hold out any assurance of outperformance against any other investment class
- On account of our emphasis on long term investments acquired at discount to fair value client monies may be retained in interest generating assets such as Liquid BEES or Bank Fixed Deposits until suitable opportunities arise. This inter alia could lead to underperformance of the overall portfolio against performance of the overall stock market as indicated by various indices such as the BSE Sensitive Index, NSE 50 Stock Index, BSE Small cap Index etc
- We look for value and may find it in illiquid stocks of small companies. A portion of your portfolio will be invested in such stocks which carries with it attendant liquidity risk apart from company specific risk.
- No hedging strategies are adopted to protect against currency depreciation or market fluctuations in either direction

# Disclaimers and a few other matters

- Clients are mailed a Monthly Statement of Transactions, Holdings and Valuation.
- Past Performance statistics are available in this presentation and will also be updated in the Disclosure Document filed with SEBI. Past performance is no indication of target returns and should not be relied upon as indicative of achievable returns or target returns for the future. The past performance statistics are based on unaudited financial statements and they have not been verified by SEBI.
- Investments are often made and held directly by promoters and other key employees in the same stocks in which the portfolio manager invests for clients. Such investments may be made by promoters, directors or by entities controlled by them. In all such cases a pre-clearance procedure is in place and priority is accorded to clients' investments both in the purchase and sale of securities in accordance with internal policies adopted for this purpose.
